Music Federation**

Dear parent/ carer

We are proud to announce the opening of our Windmill School Pond this week. A school pond offers numerous educational and environmental benefits, serving as an outdoor classroom for hands-on learning about ecosystems, biodiversity, and wildlife. It provides a unique opportunity for students to engage with nature, develop scientific vocabulary, and learn about food chains and adaptations. Ponds also enhance the school grounds by attracting diverse wildlife, contributing to local biodiversity, and offering a peaceful space for reflection and appreciation of nature.

We have implemented a risk assessment to mitigate any identified risks. The area is fenced, locked and not accessible without adult supervision. It is constructed in accordance with Leeds City Council specification and guidance.

Thank you for your ongoing support.
