## LETTER TO OFSTED FROM PARENT

To: enquiries@ofsted.co.uk  
Subject: Remote learning

To whom it may concern,

I am writing to you as a pleased, proud and happy parent. My young children attend The Music Federation (Windmill Primary school in Leeds). They are key worker children and attend school everyday. The teachers are amazing, supportive and communicate so well with parents during this stressful time. My children are happy, safe and learning.

I have complete respect and trust in our teachers. They are working so hard not only in school with key worker and vulnerable groups but also online providing a life line to those children at home.

My eldest son is remote learning on Teams. He attends Woodkirk academy in Leeds. From the first Monday after the Christmas break all his lessons were live streamed. He is learning and fully supported. How they have achieved this is unbelievable at such short notice. Their remote learning offer to students is incredible and I can't thank them enough.

I am so grateful to every single teacher giving their all in these testing times. Teachers deserve recognition for all that they do and I hope parents will share success stories with you.

Kind regards,

Proud Parent
