

Children show curiosity and this is encouraged by teacher.

Children are excited and enthusiastic about their Science lessons.

There is clear progression in science skills and understanding throughout school.

Low Road and Windmill Music Federation

Science in our school provides children with a challenge, engaging environments and promotes a life long love of science!

Science is practical and hands on, using equipment to support learning.

Children attend events/trips/workshops throughout the year.

Children can use scientific language accurately and work together to achieve learning objective.
